own personal geographies.

Royal Geographical Society - Geography resources for teachers

A sense of place will intertwine within the existing units as students explore how a place influences identity. Within this course, the term place will become an extended definition of setting, as students are encouraged to think about setting in terms of a physical setting, a historical setting, and a social setting.

our respect for ecosystems and other species, how we perceive the affordances of a place, our desire to build more sustainable and just urban communities, and how we choose to improve cities.

Sense of place | NAAEE

Sense of Place in Science Teaching Place is defined as any locality or space that has become imbued with meaning by human experience in it (Tuan, 1977). A spectrum of humanistic and scientific meanings may accrue to any given place, reflecting all of the ways that diverse individuals and groups know and experience it.
