### K40 Whisperer

*K40 Whisperer is an alternative to the the Laser Draw (LaserDRW) program that comes with the cheap Chinese laser cutters available on E-Bay and Amazon. K40 Whisperer reads SVG and DXF files, interprets the data and sends commands to the K40 controller to move the laser head and control the laser accordingly.*

*K40 Whisperer - scorchworks.com*

*K40 Whisperer is written in python so it is possible to run it on Windows, Linux and Mac. However there are a lot of dependencies that need to be satisfied in order to successfully use the program. These dependencies are resolved on windows by packaging them in the pre-compiled executable version of K40 Whisperer.*

*K40 Whisperer - LaserDRW Replacement*

*K40 Whisperer is software written to interpret SVG and DXF data and in turn communicate the design information to the K40 Laser Cutter (using the stock M2 Nano Controller board). This software is essentially a replacement for the Laser Draw (LaserDRW) software that comes with the stock K40 laser.*

*K40 Whisperer– K40 (Cheap Chinese Laser) Control Software ...*

*K40 Whisperer runs Inkscape in the background to generate raster data for SVG files. When you get an Inkscape execution failed error it indicates that something went wrong when K40 Whisperer tried to run Inkscape. This particular error occurs if K40 Whisperer found the Inkscape executable and it failed to run.*
